Continuum Plasticity								
Deformation Mechanisms in Crystalline Solids								
Strengthening Mechanisms in Crystalline Solids								
Elements of Fracture Mechanics								
Anelasticity and Damping								
Impact and Dynamic Loading								

## Grades

Aspect	Percent
Midterm Exam	35%
Final Exam	45%
Homework	10%
In-class "clickers"	10%

## ABET-EAC Criterion 3 Outcomes

Course Contribution	College Outcome
	a An ability to apply knowledge of mathematics, science, and engineering.
	b An ability to design and conduct experiments, as well as to analyze and interpret data.
	c An ability to design a system, component, or process to meet desired needs.
	d An ability to function on multi-disciplinary teams.
	e An ability to identify, formulate, and solve engineering problems.
	f An understanding of professional and ethical responsibility.
	g An ability to communicate effectively.
	h The broad education necessary to understand the impact of engineering solutions in a global and societal context.
	i A recognition of the need for, and an ability to engage in life-long learning.
	j A knowledge of contemporary issues.
	k An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.
